

Sergio Cruz

Orlando, FL - Phone: (407) six-nine-four 8175 - Email: hello[at]sergiocruz.me

Career Summary

Senior software developer with over 10 years of demonstrated experience and a penchant for managing development teams. I have a special interest in JavaScript and offer great communication and leadership skills—I'm always hungry to learn more.

Employment Experience

Trazi Ventures (May 2017 – Present)

Engineering Manager

- Architects scalable software that is used by millions of people every month
- Writes new features using REST API (Laravel) and Single Page Apps (React)
- Manages software engineering team (3 direct reports)
- **Special accomplishment:** A parent was able to find a lost child of many years through our software. It made me shed a few tears when I learned about this.

Pluralsight (April 2015 to May 2017)

UI Engineering Lead (Dec 2016 - May 2017)

- Lead of the UI efforts for my engineering team
- Created and maintained Single Page Applications using React
- Integrated apps with enterprise systems (domain-driven design)

Course Engineer (Apr 2015 - Dec 2016)

- Wrote tests to make users' code run proprietary courses platform of CodeSchool.com
- Produced and presented content for courses on technologies such as React & Angular (v. 2+)
- Spoke at conferences sharing insight into the software development industry
- **Special accomplishment:** I had someone approach me at a conference to thank me because thanks to the contents on my course they were able to land their first job as a developer.

GotChosen (Jul 2014 - Apr 2015)

Sr. UI Engineer

- Developed large-scale JavaScript application using AngularJS
- Integrated application with in-house API using OAuth
- Assisted the API team to produce good RESTful standards

Full work experience available on my website at <https://sergiocruz.me>

Special Skills

- Active in the development community in Orlando, organizer of OrlandoJS and Orlando Devs
- Proficient public speaker, having delivered multiple technical conference talks
- Passionate about teaching and loves mentoring developers as they grow their careers
